      i. Feature 3 (Q)
      ii. Feature 2 (Daniel)
   b. Beautify feature 1. Before that, select a template as a standard across pages. (Daniel)
   c. Think of our app names (optional)
   d. Report
      i. Executive Summary
      ii. Introduction

📝 **Meeting Minutes:**

1. **Feedback from other group**
   a. Existing tech like google, need to set it apart from our solution
      i. If google, waste time need to search
   b. Potential risk: might not want to do activities (even if there's reward)
   c. Think about potential customers
   d. Overall idea is good, adding location category filter would be beneficial
      i. For the recommended location
   e. Can make it more game-like (ex. The dashboard)
   f. Share your ranking on social media platforms to promote
   g. Increase trustworthiness of the recommendation
      i. Attach knowledge base sources
   h. Increase the aesthetic for high fidelity
      i. Android phone layout
      ii. Like 3rd one, minimalistic design
2. **Ask**
   a. Do we need to think how to finance the operation of the apps
      i. No need. Explain in report
